About eSportsClub

eSportsClub is a robust online solution for sports club administration and management. A comprehensive MIS, where all the information is consolidated in one place and made accessible in various formats on the click of a button. eSportsClub is a forum for collaboration for various stakeholders including players, coaches, referees, parents, managers and club administrators. A solution offered as Software as a Server(SaaS) with zero infrastructure cost, has been successfully implemented in various Ice Hockey clubs, baseball clubs and football clubs in the United States.
